No E-Way Bill Access Without 2FA from April 2025, Says NIC

Description

As per NIC (E-way bills System)-2 Factor Authentication is Mandatory for all Taxpayers and Transporters from 1st April 2025

🔐 2FA = Login with Password + OTP **(every time)**

✅ Once enabled, 2FA applies to both E-Way Bills & E-Invoicing Portal.

🕒 Though system still allows a 2-month deferral on filing undertaking with a valid reason (I've deferred in one case **citing administrative challenges), here's my suggestion:**

👉 Dealers – Register for 2FA early & get used to it instead of deferring it.

👉 Professionals – First update mobile number (especially if you used your own number during initial registration), and then guide the client to opt for 2FA. Until then, can defer it.
